Answer: A,B,D,E

Explanation:

Question: 5

In a manufacturing plant, the work definition and rate plans of Material, Resource, and Overhead of an assembly have been defined as required.

A cost accountant created different scenarios to represent different manufacturing and cost assumptions and compare the results. When the cost assumptions are finalized, the cost accountant is expected to publish the cost scenario to cost accounting.

Identify three process steps that the cost accountant has to perform to transfer the assembly to cost accounting in frozen type.

- A. Publish cost planning scenario to Accounting.
- B. Build cost planning scenario and perform cost roll up.
- C. Create Accounting Distributions.
- D. Transfer transactions from production to Costing.
- E. Define a cost planning scenario with Material, Resource, Overhead cost plans, and work definition.
- F. Transfer Transactions from Inventory to Costing.

Answer: C,E,F
